Setup notes for your IT team

Five minutes. Nothing to install and no directory sync.

Sign-in

Google Workspace for Education works with no setup. Microsoft 365 asks only for sign-in, email and profile. Powstik stores no passwords. A supervisor confirms from a one-time link with no account.

Data Processing Agreement

Your school is the controller and Powstik is the processor. Read, print and sign it. A breach is reported within 72 hours. The sub-processor list is in the agreement.

Audit log

It records sign-offs, role changes, invites, exports, plan changes, reminder emails and deletions. It never records the content of an experience. The log is append-only.

Under-18 privacy

Work by anyone under 18 is never public. Powstik emails adults only. Powstik shows no ads and never sells the data. It never trains AI models on it.

Export

Your school can export all of its data at any time. That includes the audit log, and it includes after the school stops paying.

Where the data lives

In the United States, encrypted in transit and at rest. Each student keeps their own record. Your school's view of it ends when your school leaves.

The offer

31-day free trial. No card needed. The clock starts at your first student invite.

Then **$99 a month**, locked. This is for the first 100 schools that join by 31 December 2026.

After that, it is $199 a month for up to 180 DP students. Above that it is $299. A year costs 10 months.

If you haven't paid by the end of day 31, coordinator tools go read-only. Students, supervisors and exports keep working. Nothing is deleted.

Students and supervisors never pay. Runs alongside ManageBac or Toddle.
