Theory of Knowledge, with a clear record

Keep the exhibition and the essay process, with teacher check-ins.

- The exhibition: the prompt, three objects and the commentary.
- The essay process, with teacher check-ins along the way.
- Every step carries an AI-use declaration. The teacher reads it before confirming.
- The teacher confirms the work is the student's own on the last step.
- The coordinator sees work that is still awaiting authentication.

Sample: the demo school ToK tab. No real students appear.

The offer

31-day free trial. No card needed. The clock starts at your first student invite.

Then **$99 a month**, locked. This is for the first 100 schools that join by 31 December 2026.

After that, it is $199 a month for up to 180 DP students. Above that it is $299. A year costs 10 months.

If you haven't paid by the end of day 31, coordinator tools go read-only. Students, supervisors and exports keep working. Nothing is deleted.

Students and supervisors never pay. Runs alongside ManageBac or Toddle.
